Rules

- You are Space Dude (the green guy) and guess where you are... space! 😄
- The game starts with you on the static magenta colored platform.
- There are 5 moving blue platforms that are initialized with a random speed (between 3 and 7) and random direction. Each is worth 10 points.
- The final green platform has a speed of 2 and is worth 30 points.
- Space Dude earns points by landing on previously unvisited platforms.
- If Space Dude falls off and lands on a platform below, no points are awarded.
- If Space Dude smacks into a platform, 5 points are deducted so long as the current score is greater than 5. 😞
- The goal is to move from the magenta platform to the green platform for a perfect score of 80.

Sound effects

- Background music plays while the game is running.
- A sound effect is played when Space Dude jumps.
- A sound effect is played when points are successfully scored.
- A sound effect is played when Space Dude gets smacked by a platform.
- A sound effect is played when Space Dude makes it to the green platform.
- A sound effect is played when Space Dude falls below the magenta platform.
